Subject: Fairfax Boulevard Construction

Dear Resident:

Fairfax Boulevard construction has begun and I appreciate your patience. The contractor constructing the project, Jefferson Contracting, *will conduct its first planned blasting on Monday* on Fairfax Boulevard between Lancaster Circle and Sixth Avenue. This blasting will allow for the excavation of the project to continue.

Yesterday, I had a flyer on my door offering a free “pre-blasting survey.” I wanted to inform residents that this is not a business affiliated with Jefferson Contracting or the City of Ranson. City staff has spoken to Jefferson Contracting. The contractor has informed City staff that Jefferson Contracting has already performed pre-blasting surveys as they were required to do prior to blasting. Pre-blasting surveys were conducted several months ago. The flyer placed in residents’ doors is from a third-party company.

Obviously, residents are free to take advantage of the offer contained on the flyer, but please be advised that this company is not affiliated with the Fairfax Boulevard project, Jefferson Contracting or the City of Ranson.

You can contact me with any questions regarding the project at (304)725-1010. Again, we very much appreciate your patience and understanding as this major construction project progresses.

Sincerely,

]

Mayor A. David Hamill
